Letter from the Commissioner of Labour, Madras No.E 8728/31, dated 7th December 31:-

The District Labour officer, South Kanara reports that there are about 700 to 800 sub divisions pending to be measured and that there are also several sub divisions to be measured in Panathady village in Kasaragod taluk where an area of about 2000 acres has been reserved for the use of the depressed classes and where there are a number of applicants for land on darkhast. The Dt.Labour officer states that out of the six special Inspectors in the Dt., four have beenabolished and that the remaining two who ar each working in three taluks cannot attend to this large survey and sub division work in addition to their legitimate work. He therefore requests that the post of the Dy.Surveyor which was abolished with effect from 16-6-31 along with the other Dy. Surveyors working in this department may berestored until the work referred to above is completed. The Collector strongly recommends the Dt. Labour Officer's proposa I enclose a copy of the Dt. Labour officer's letter No.C 3669/31, dated 11-11-31 together with a copy of the Collector's endt. thereon dated 17-11-31 for the information of Govt.

I request that Government may be pleased to sanction the post of Dy.Surveyor in this district temporarily till the end of March 1932. The expenditure involved can be met from the current year's provision under '37 AMisc-Departments -Labour -Reserved a -B -Dt.staffs -Pay of establishments (Voted)'

Copy of letter No.Ref. on C 3669-31,dated 11-11-31 from the Dt.Labour officer,South Kanara to the Commr.of Labour Madras through the Collector of South Kanara.-

The post of the Special Dy.Surveyor working in thi Department was abolished with effect from 16-6-31.- Please see your proceedings No.E 4758-31 dated 10th Jun 1931. Consequent on this, the survey work which was for merly being done by the Dy.Surveyor has now devolved upon the Special Inspectors. There were formerly 6 Special Inspectors attached to this Deptt. But along with that of the Dy.Surveyor! the posts of 4 of the Special Inspectors have also been abolished with effect from 16-6-1931 in your proceedings quoted above. The 2 remaining Special Inspectors who have therefore been placed in charge of 3 taluks each have now to attend to survey work in addition to the other multifarious dutie

2. The jurisdiction of 3 taluks for a Special Inspr is in itself beyond easy traverse and it is impossible expect speedy and efficient work as much time is spent in travelling from one place to another. What little time is available after deduction is madefor travelling is insufficient for the Special Insprs. to attend to their ordinary duties, such as allotment of land to Depressed classes, formation and inspection of colonies inspection of plots dealt with in darkhast cases, inspection of schools and supply of books etc., and all correspondence relating to them, distribution of pay of teachers in some cases and rent and scholarships, supervision of well and other works and preparation of estimates etc., distribution of books and clothes to Depressed classes children reading in general schools, collection of land revenue arrears and attending to all other correspondence connected with the Depressed classes etc.etc.

3. The survey work in this district is admittedly difficult owing to the hilly nature of the villages. There are about 700 to 800 sub dvns. pending to be measured, most of them being sub divisions to be formed in accordance with the lay outs approved by the Director of Town Planning Madras. There are also several sub divisions to be measured in Panathady village in Kasaragod taluk, where an area of about 2000 acres has been reserved for the use of the Depressed classes and where there are a number of applicants for land on darkhast Panathady is a very extensive kumri village where the survey operations are extremely difficult. A proposal was however put forward for the Survey Deptt to attend to the Survey work there. But it had to be dropped as the expense involved was much and the survey work was accordingly allotted to this Deptt. It is physically impossible for the 2 Special Inspectors now working to attend to all this work. Even where there were 6 Special Inspectors under this Deptt. the Dy.Surveyor had sufficient work to do. With the existing two Special Insprs., naturally he(The Dy.Surveyor) must necessarily have more work. I therefore beg to submit that the services of a Dy.Surveyor are quite indispensible and request that the post of the Dy.Surveyor may be kindly sanctioned and reinstated. If however the Commr.is not prepared to retain him permanently as is perhaps the case with the other existing special staff he may at-least be kindly retained till the end of March next so that the work which is now in heavy arrears may be got completed before 31-3-1932 thereby leaving little arrears at the end of March next. The expenditure involved is not much. If the proposal is sanctioned with effect from 1st December 31, a sum of Rs. 140 will be required for his pay at Rs.35 per mensem from 1-12-31 to 31-3-1932 and another sum of Rs. 100 for his T.A. at an average rate of Rs.25 per mensem for the same period.

Copy of endorsement of the Collector dated 17th November 31-

F o r w a r d e d.

I support the D.L.O's request strongly.

2. In his letter at pp 3-4 C.F. the Labour Commissioner has addressed Govt for the employment of a special deputy surveyor for the measurement of sub-divisions in connection with assignment of land for the depressed classes in the South Kanara district. He Govt point out that all the stages of darkhast work should be dealt with by the Revenue Department and enquire whether the measurement of these sub-divisions cannot be attended to by the ordinary revenue staff. In B.D. no 1211 mis) 27-4-29 the Labour Officers have been permitted to be appointed as Survey Officers for purposes of survey and demarcation of land proposed for

(1)
pp 11-13

assignment to the depressed classes. This was done on the suggestion of the Labour commissioner who brought to notice that there was inconvenience and delay arising from the fact that the Labour officers and Inspectors had no powers under the Survey and Boundaries Act in respect of ~~land~~ assignment of land. The above B.P. copy of which was marked for Govt was recorded by them in G.O. No (19.6 ms) of 15-6-29. The attention of Govt may be invited to this and they may be informed that there is no objection to the Labour officers dealing with the measurement of ~~land~~ lands assigned to the depressed classes.

As regards the question whether the ordinary revenue staff cannot cope with the work it is submitted that it will not be possible to do it as one area reserved for assignment is large ~~about~~ very more than 2000 acres. The Collector himself has strongly supported the proposal for the employment of the special staff. Our Board may also support the proposal. ~~for which expenses to be debited to the~~
